The Herald

THE DAILY HERALD is the only paper published between Winnipeg and Vancouver. Its circulation in the city and district of Calgary is equalled by no other paper. Subscription rates: In Advance, \$1.00 per week. The WEEKLY HERALD published on Thursday morning to time for all outgoing mails, has a circulation unexcelled by any other paper in the Northwest Territories. It is a valuable paper and contains details of the news of all other papers in the Territories. For advertising medium it is unequalled. Subscription rates: In Advance, \$1.00 per week, when not paid in advance \$1.25.

THE CALGARY HERALD CO., (LTD.), Publishers.

THURSDAY, JAN. 7, 1897.

THE MOUNTED POLICE

The following transfers took place in "B" Division of the North West Mounted Police during the month of December:

Sergt. Whitehead, Calgary to Macleod.

Sergt. Do, Macleod to Calgary.

Staff-Sergt. Bagley, Calgary to Banff.

Staff-Sergt. Denning, Red Deer to Calgary.

Staff-Sergt. Evans, Calgary to Red Deer.

Sergt. Cochrane, Regina to Calgary.

Sergt. Brown, Macleod to Calgary.

Corp. Walker, Regina to Calgary.

Corp. Espinal, Regina to Calgary.

Const. Super, Regina to Calgary.

Const. Storey, Calgary to Macleod.

Const. Jones, Calgary to Macleod.

Corp. Ott, Banff to Macleod.

Const. Taylor, Calgary to Banff.

Const. Eldred, Banff to Calgary.

Corp. Brinkley, Macleod to Calgary.

Const. Sheppard, Regina to Calgary.

Const. Perry, Calgary to Regina.

Const. Antoin, Regina to Calgary.

Corp. Halliday, Calgary to Lethbridge.

Corp. Mcnair, Calgary to Macleod.

Const. Macleod, Macleod to Fort Walsh.

Const. Hutt, Calgary to Antoin.

Const. Beaumont, Antoin to Calgary.

At a moderate computation these transfers have cost the country \$800. What the taxpayers will be called on to meet in expense, incurred at the expense of an exceedingly unpersuaded, spiteful and inconsistent, and most unappealing clearances to the average citizen. The HERALD confesses itself unable to furnish a satisfactory answer to far as can be seen the transfers have been the consequence of an entirely unnecessary, and in the absence of any explanation Commander Herchmer has prided himself on his close-packing the transfer, standing out as an extravagant and capricious administrator.

Since the above was not in type the following half-don't additions have been made:

Consts. Steele and Dunn to Macleod.

Consts. W. R. Oliver, V. Bullock and Dugan to Fort Saskatchewan.

It is stated on good authority that every non-commissioned officer and man who can procure a discharge, by purchase or otherwise, is leaving the force. Surely some investigation is necessary into the causes which are demoralizing the police force. Politicians have much claim on the protection of the Government as private citizens, and if Senator Loughheed and Mr. Oliver, M. P., do not take the earliest opportunity of directing attention to the matter in Parliament they will be neglecting their duty to their constituents in the public generally. On this point certain. The case of Sergeant Perry cannot be brought into question as an occurrence in the past. The sentences would be looked upon as a grave breach of discipline. The Commissioner has been more over than a Judge of the Supreme Court, and as the Chief of the Police he seeks to enforce.

BRING THE WHOLE HOUSE

The visit of Hon. Messrs. Hall, Tarte and Davis and of Col. Dom. McRae, to Western Canada, was so successful in impressing the gentlemen with the importance and extent that it was well worth the good idea to give the whole House of Commons an excursion to the coast and the Kootenay, with all its attractions in route.

As the Montreal Star says, in noting the valiant announcement of our recent victory of their "discovery" of the Great

West, "the West invariably wins the allegiance of any open-minded men who go to any of the land, into it, and by increased competition bring prices of produce still lower."

The proposition of Mr. Douglas, P. for Eastern Asia-Pacific, that pure cattle should be carried to the North West free instead of the prohibitive rates a year ago, asking too much. Alberta would not be satisfied with half rates and the C. P. R. did well after to carry them at that.

The New Year ushers in a promise of brighter prospects for Alberta. The province is on a rising wave and the supply is not equal to the demand. Outside of the railway country seems at hand, merchants report business improving and bountiful Providence is once more smiling on our fair domain.

CROW'S NEST AND COMPETITION

The purchase by the Canadian Pacific Railway of the steamship route from Revelstoke into West Kootenay, probably means that the company has given up all hope of building a new line to the railway into its own hands. Sir John A. Macdonald, who has undoubtedly figured on building the Crow's Nest Road. On no other question can his delay in buying the steamers on the Arrow route be taken by accountants. For a year or two ago the Canadian Pacific Company could have built these steamer at its own price. Now it has undoubtedly to pay very much more. On the first of February a daily boat service will be inaugurated there will be a connection with the new railway which Mr. Heine announced immediately from Kelowna to Trail. This with the new line from the Canadian Pacific Railway intends to put on will give the Crow's Nest Road a new lease of life. It will connect with the line to all points in the Arrow and Kootenay Lakes and will mean much to farmers and shippers in the valley who will thus have a quicker and presumably cheaper means of access to their rapidly growing market in the mining camps. If the Government build a line through the Crow's Nest Pass the country will secure a new outlet to the coast, and the best possible competition in rates. Such a change would result in a saving about 1000 miles better freight toward the C. P. R. than the route through the Crow's Nest. There is no doubt that enterprise has not always been the result of the people of this part of the country.

THE C. P. R.

The Canadian Pacific has paid five per cent dividends on stock some of which was sold at 200 per cent. A return of 20 per cent per annum on investments made more than profitable from new lines, and the company has the confidence that can scarcely be continuous. The line will no doubt be seeking favourable concessions from the Government in the near future. It may be that the demand for a new line to the coast is the cause of the new extended negotiations. Whatever may be the basis of the Government's concessions should be granted until all the lines are completed. The Government and the company are thoroughly reviewed and discussed before other nations as well as the success of the railway of railway corporations in the West. Wherever our brightest hopes of national progress are naturally directed to, to the West. The West will inherit the debts incurred in our ambitions through blundering expansion, and that will be ruinous enough. Glibbe.

"This monstrous piece of middle-age tyranny" is the Victoria Province's description of the assassination of E. Lecteur, and it is not too strong.

A cable item from London gives the interesting information that during the past 12 months nearly 15,000 persons have become converts to the Roman Catholic Church, of this number 2,000 being in the diocese of Westminster.

In an article on the Quebec fight the Mail and Empire complains that the Liberals have taken too definite action to free the legacy of the ban placed by the bishops on the Roman Catholic Church. The two confederates themselves with changing the name of the paper to Le Soleil.

The Regina Leader finds it difficult to go out of the "organ" business. For a dozen years or so it was the organ of Mr. Davin. It was then bought by the Provincial Executive and now it has assumed the organization of Commissioner Herchmer. It relates to have discovered the astounding fact that the Hon. Catholic Church of this number 2,000 being in the diocese of Westminster.

A farmer writing to the Orillia Packet complains that the farmers that too many young men are leaving the farm for the city. He contends that the professions are not a big use overworked than

farming, and he wants somebody to tell him what farming is to come to if still more men crowded into it, and by increased competition bring prices of produce still lower.

The proposition of Mr. Douglas, P. for Eastern Asia-Pacific, that pure cattle should be carried to the North West free instead of the prohibitive rates a year ago, asking too much. Alberta would not be satisfied with half rates and the C. P. R. did well after to carry them at that.

The New Year ushers in a promise of brighter prospects for Alberta. The province is on a rising wave and the supply is not equal to the demand. Outside of the railway country seems at hand, merchants report business improving and bountiful Providence is once more smiling on our fair domain.

The value of the mineral output of Montana for the year is as follows: Copper, \$2,400,000; Silver, \$1,750,000; gold, \$140,000; lead, \$875,000; zinc, \$1,200,000. The Montana Herald says that it is believed that the day will come when the value of the mineral output of Montana will be \$10,000,000.

The next thing they will hear of is the coming of the communication of Mr. Tarte. But as he has already been mentioned in the press, it is presumed excommunication would be a more fitting title. The next thing they will hear of is the coming of the communication of Mr. Tarte. But as he has already been mentioned in the press, it is presumed excommunication would be a more fitting title.

A gentleman hailing from the south of England has been considering the possibility of making a trip to the north of the continent. He has been thinking of the possibility of making a trip to the north of the continent. He has been thinking of the possibility of making a trip to the north of the continent. He has been thinking of the possibility of making a trip to the north of the continent.

The Calgary correspondent of the New Western Times says that the police have been looking for a man who has been seen in the city. The man is described as being a man of about 30 years of age, with dark hair and eyes, and a mustache. He is wearing a dark suit and a white shirt. He is described as being a man of about 30 years of age, with dark hair and eyes, and a mustache. He is wearing a dark suit and a white shirt.

AN EXPERIENCED TRAVELLER

A fellow individual, in a faded brown overcoat, was seen on a street in a restaurant the other evening and said to the waiter:

"Give me a cup of coffee and one of your expurgated sandwiches."

"What?"

"One of those vacuum sandwiches for expurgated sandwiches."

"I haven't any like that here under that glass cover."

"That's all right, particularly variety I want. He helped himself to one of them and lifted the lid. "This is what I call a sandwich," he observed, "it's a sandwich with a vacuum pump inside it. It's a sandwich with a vacuum pump inside it. It's a sandwich with a vacuum pump inside it. It's a sandwich with a vacuum pump inside it."

THE CITY SCHOOLS

Major Walker Makes Some Observations on the Record of the Past Year.

TO THE HATEWAYS OF CALGARY PUBLIC SCHOOL DISTRICT:

As chairman of the Board of Trustees for the past year I beg leave to bring to your notice a few lines connected with school work during the year.

Your board held regular monthly meetings and several special meetings during the year, which were well attended by members of the board, who gave their best attention to the business of the board.

Some success was experienced in the beginning of the year in keeping the schools open during the winter, when severe weather and the consequent snow of the roads had to be combated by the board. The furnace acted so unsatisfactorily that the board estimated on putting in new furnaces during the summer holidays. On further investigation they decided that the best way to do the thing was not to put in new furnaces, but the chimney reconstructed during the summer holidays at a small cost, with the result that the schools were kept open during the winter, and the students were not inconvenienced by the weather.

Your board has also during the past year had the Santa Ward school painted, and the school has been kept open during the winter, and the students were not inconvenienced by the weather.

During the year the board after careful consideration and by unanimous vote, fixed a schedule of salaries for teachers in the Public Schools, whereby all teachers are to be paid at a minimum salary of \$100 per month for full time, and for part time, a minimum salary of \$50 is required. The board has also during the year, after careful consideration and by unanimous vote, fixed a schedule of salaries for teachers in the Public Schools, whereby all teachers are to be paid at a minimum salary of \$100 per month for full time, and for part time, a minimum salary of \$50 is required.

The physical drill, which was introduced last year, is continuing this year, and the students are being taught the value of physical drill, which was introduced last year, is continuing this year, and the students are being taught the value of physical drill.

Your board taking into consideration the proximity to the mountains and the mining regions would recommend that the students be taught the value of physical drill, which was introduced last year, is continuing this year, and the students are being taught the value of physical drill.

THREE ARE OTHERS

TO THE EDITOR OF THE HERALD:

SIR, There is a man in town who pretends to be too good a girl to read the Herald, and every night he comes to our mine and must have his head on his shoulders and his hands on his hips, and he must have his hands on his hips and his hands on his hips.

PRINCE OF WALES

How His Grace, the Prince of Wales, Visited America in the Autumn of 1896.

Stephen Fiske describes the Prince of Wales' visit to America in the autumn of 1896. The Prince of Wales, who is now the Duke of Cornwall, visited America in the autumn of 1896. He was accompanied by his wife, the Princess of Wales, and by his children, the Prince of Wales and the Princess of Wales.
